Invitation to MIE 2024

Dear Colleagues,

It is our great pleasure and honour to invite you to the **34th Medical Informatics Europe Conference (#MIE2024)** to be held in Athens, Greece, from the 25th to 29th August 2024.

MIE 2024 is co-organised by: (a) the **European Federation for Medical Informatics Association (EFMI)**, the leading organization in biomedical and health informatics in Europe that comprises 30 national societies and includes an exceptional network of institutional members, experts and stakeholders in healthcare, IT and its societal dimensions; supported by 16 working groups of topics spanning the entire spectrum of Health Informatics; and (b) the **Greek Biomedical and Health Informatics Association**, which specialises in research, education/ training of healthcare professionals in Health Informatics, and in supporting the development of health information systems by implementing and documenting Health Informatics terminology, documentation and standards in Greece.

The theme of the congress is "*Digital Health and Informatics Innovations for Sustainable Health Care Systems*" and we aim to advance international co-operation and dissemination of information in Medical Informatics on a European basis and to promote research and development in medical informatics. The scientific programme will consist of keynote speeches by distinguished scholars, peer reviewed oral presentations, e-poster presentations, panel discussions, workshops, demonstrations, and tutorials fostering the advancement of Biomedical and Health Informatics across the globe.

We are looking forward to welcoming you to Athens.

Sincerely yours,

John Mantas,
Chair of MIE 2024
PhD, FGBHI, FACMI, FEFMI, FIAHSI, H.M.RAMS
Professor Emeritus of Health Informatics

About Us

The European Federation for Medical Informatics Association (EFMI) is the leading organisation in medical informatics in Europe and represents 32 countries. EFMI is organised as a nonprofit organisation concerned with the theory and practice of Information Science and Technology within Health and Health Science in a European context. The objectives when founded in 1976 were:

- To advance international co-operation and dissemination of information in Medical Informatics on a European basis;
- To promote high standards in the application of medical informatics;
- To promote research and development in medical informatics;
- To encourage high standards in education in medical informatics;
- To function as the autonomous European Regional Council of IMIA

For more information visit <https://efmi.org>

The Association aims to evolve and promote the scientific field of Health Informatics.

Health Informatics is the scientific discipline concerned with the systematic processing of data, information and knowledge in health care. The domain covers computational and informational aspects of processes and structures in health care.

Its aim is to study all the applications of informatics and computer science in Health Sciences (Medicine, Nursing, Dentistry, Biology, and Pharmacy) and health care.

GBHIA is a member of both EFMI and IMIA. For more information visit <https://www.gbhia.com>

EUGENIDES FOUNDATION

The Eugenides Foundation is a non-profit organization based in Athens, Greece. The foundation was established by the late Eugenios Eugenides, a prominent Greek benefactor and entrepreneur. The foundation focuses on various educational and cultural initiatives.

One of the notable contributions of the Eugenides Foundation is the Eugenides Planetarium, located in the Faliron Delta area of Athens. The planetarium is a significant educational and scientific facility that offers programs and shows related to astronomy, space exploration, and other scientific topics, hosting a wide variety of interdisciplinary events. It provides an immersive experience for visitors and aims to promote scientific education and awareness.

Additionally, the Eugenides Foundation has been involved in various philanthropic activities, supporting educational programs, scholarships, and initiatives that contribute to the cultural and scientific development of Greece.

Main Scientific Topics

Reasons to Attend

Growth and Success

Secure the future growth and success of both your career and organization by participating in the premier conference on Medical/Health Informatics. This event guarantees to keep you one step ahead of the evolving landscape of global research practices. Step away from your daily routine and immerse yourself in an environment filled with researchers from diverse fields, companies, and organizations, sparking creative thinking beyond conventional boundaries. Embrace the opportunity to absorb fresh ideas and strategies, with the immediate potential to positively impact your bottom line. Don't just attend; be at the forefront of transformative change in medical and health informatics.

Educational Opportunities

Dive into an enriching experience over four distinct days at MIE 2024, where a plethora of sessions and courses await, covering the latest in medical and Health Informatics topics. Carefully curated for their impactful contributions to the informatics industry, insightful perspectives, and exceptional audience engagement, our speakers are set to expand your horizons. Get ready to absorb the freshest trends and knowledge that can be seamlessly integrated into your day-to-day operations. Join us for an immersive journey into the forefront of medical informatics!

Attend, Network, Engage

The MIE Conference stands out as the ultimate venue for networking, bringing together a diverse array of attendees from across the globe. Nowhere else offers such a unique opportunity to connect with a broad spectrum of research professionals in such an enjoyable setting. Make the most of your experience by engaging with fellow attendees at our welcome reception, during lunches, networking events, and coffee breaks. And of course, don't forget to bring your business cards!

Fill Yourself with Memories

Being in Athens and strolling through the city is similar to exploring an open-air museum, where some of the most impressive ancient monuments reveal themselves at every turn. From "The Acropolis" and "The Temple of Olympian Zeus" to "The Panathenaic Stadium," "The Herod Atticus Odeon," and "The Academy of Athens," the city boasts a rich tapestry of historical landmarks.

Don't forget to wear your comfortable pair of shoes as we embark on a journey to discover these must-see Athens landmarks. And when hunger strikes, indulge in the famous Greek cuisine at restaurants or waterfront traditional tavernas offering freshly caught seafood straight from the net.

Indulge Yourself

After enduring the challenges of the pandemic, including necessary social distancing, lockdowns, and prolonged travel restrictions, it is now time to reunite. Feel free to resume traveling and consider blending your professional activities with leisure during the delightful summer season. Treat yourself to some relaxation by taking a dip in the deep blue sea or explore the countless cultural heritage sites of Greece.
